

The image consists of two photographs of a custom-built electronic device. The top photograph shows the back of the device, which is housed in a yellow plastic enclosure. A battery is visible on the left, connected to a circuit board. A small speaker is mounted on the bottom left, and a black antenna is attached to the right side. The bottom photograph shows the front of the device, revealing a complex circuit board with various components. The board is populated with numerous resistors, capacitors, and integrated circuits. A small antenna is visible on the left side of the board. The device is placed on a light-colored, textured surface.
